

Preschool Teachers

Preschool teachers supervise 3 to 5-year-old students as they develop group interaction skills, such as sharing, following directions, listening quietly to others, and playing cooperatively.

Preschool teachers will supply a snack for preschool students at each meeting and submit receipts for reimbursement to the Anchor Treasurer.

Although safety is our primary concern, we encourage teachers to plan simple activities to occupy the students as they learn school readiness skills such as coloring and using a scissors.

Class plans should offer consistent structure and age appropriate activities that prepare students for future coop classes.

Please foster an environment of respect, gentleness, and patience.

Past activities have included: outdoor games, when the weather is warm, Play Dough, craft time, scheduled bathroom break, snack time, story time, show and tell, group games, music, and so forth.
